PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate at SNS College of Technology with a growing foundation in frontend development, UI/UX, and AI-powered applications. I enjoy building products that combine clean design with practical functionality. Through hackathons, an industry internship, and personal projects, I have gained experience collaborating in teams, learning modern technologies quickly, and delivering polished solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS

Frameworks & Tools: React, Vite, Tailwind CSS, Next.js, FastAPI, Supabase, Git, GitHub, VS Code, Cursor AI

Design: Figma, Canva, FlutterFlow, UI/UX Design

INTERNSHIP

Software Development Intern – ArkenSys Realtors

Contributed to internal software development initiatives including the Artist Color Lab project. Worked with modern frontend technologies, database integration, and collaborative development practices while gaining real-world software engineering experience.

FEATURED PROJECTS

Artist Color Lab – Developed a web application for color extraction, palette generation, and paint visualization using React, TypeScript, Tailwind CSS, Supabase, and PostgreSQL.

WeatherBuddy – Built for NASA Space Apps Challenge to provide weather insights and outdoor risk analysis through a clean, user-friendly interface.

Shopping Assistant – AI-assisted shopping concept created during the Oblivion National Hackathon.

Personal Portfolio – Designed and developed a premium portfolio using Next.js, Tailwind CSS v4, Framer Motion, and modern UI principles.
